Yell Group plc financial results for the year ended 31 March 2004

Ahead of IPO expectations. Continued US expansion

- Group turnover up 6.5% to £1,186.9 million; 11.3 % at a constant exchange rate
- Group Adjusted EBITDA up 11.5% to £360.1 million; 15.0% at a constant exchange rate
- Group Adjusted profit after tax £60.2 million (£25.5 million loss last year)
- Group operating cash flow less capital expenditure was £303.5 million; £311.2
 million at a constant exchange rate (£307.4 million last year)
- Pro forma earnings per share before amortisation 25.6 pence
- Final proposed dividend of 6p per share giving 9p in total for the year

Note:

Earnings, profit after tax and cash flow figures stated before exceptional IPO costs and also, in 2003 only, a non-recurring restructuring charge. Including these costs, the Group made a statutory loss after tax of £51.1 million (£40.6 million loss last year).

John Condron, Chief Executive Officer, said:

"These are good results which have more than met IPO expectations. We have continued to win and keep advertisers in the UK and the US. In the UK, the rapid growth of Yell.com has added to our momentum. We have also continued to build strong platforms to ensure that we can grow advertising volumes and customers' spend with us, growing the advertiser base in the UK and expanding our US footprint with the purchase of Feist and six in-fill acquisitions.

"Our strong brands and market presence, together with our focused and disciplined approach, give us confidence that this year's good growth momentum will continue into the year ending 31 March 2005."

John Davis, Chief Financial Officer, said:

"We have continued to invest to reinforce revenue growth while still growing EBITDA margins, with the US margin, in particular, ahead of expectations. The natural hedge arising from our US dollar denominated debt has reduced the effect of the weakening US dollar on our results.

"Our strong cash generation coupled with the benefit of our new financial structure has financed £108.9 million of acquisitions, funded our dividend and reduced debt. Net debt currently stands at 3.4 times EBITDA. We expect to grow dividends in line with earnings, with the balance of cash retained for platform and in-fill acquisitions in the US."

Turnover, adjusted EBITDA, operating cash flow and cash conversion are the key financial measures that we use to assess the success of our people in achieving growth in the business and operational efficiencies.

REVIEW OF OPERATING PERFORMANCE

Turnover

Group turnover increased 6.5% to £1,186.9 million, or 11.3% at a constant exchange rate, from £1,114.0 million last year. Excluding discontinued products (the sale of Yell Data, our data-service business, sold in June 2003, and the ending of our contract with BT to sell advertising in its phone books in March 2003) Group turnover grew by 7.2%, or 12.0% at a constant exchange rate.

UK operations

UK turnover increased 4.4% excluding the discontinued products. Including them, turnover rose 3.3% to £634.9 million.

Printed directories turnover grew 3.5% to £593.9 million, after the impact of the 4.8% price reduction under the RPI-6% price cap to which Yellow Pages directories are subject. We added over 116,300 new advertisers compared with 101,800 last year, increasing the total unique advertisers by 6.4% to 480,000 and exceeding our target of 100,000 new customers for the fourth successive year. We expect the momentum in new customer acquisition to continue next year.

After the impact of the price reduction and the dampening effect that the increased numbers of new customers had on yield, turnover per unique advertiser declined 2.8% to £1,237.

¹²⁾ Adjusted items are stated before exceptional costs arising on IPO and also, in 2003, the non-recurring restructuring costs of £3.7 million incurred on the integration of the former McLeod organisation in the United States.

⁽³⁾ Cash inflow from operations before payments of exceptional costs, less capital expenditure.

⁽⁴⁾ Operating cash flow as a percentage of adjusted EBITDA.

⁽⁵⁾ Change at constant exchange rate states the change in current year results compared to the previous year's results as if current year results were translated at the same exchange rate as that used to translate the previous year's results.

Yell.com grew turnover by 27.1% to £25.8 million, with the number of searchable advertisers growing by 37.3% to more than 103,000 at March 2004.

Turnover from other UK products and services, including Yell.com, declined 0.5% to £41.0 million. The 27.1% growth in Yell.com turnover was offset by the effect of the loss of turnover from our discontinued products.

US operations

US turnover was £552.0 million. It increased 21.2% at a constant exchange rate, or 10.6% after taking into account the £53.0 million reduction in turnover which resulted from the weaker US dollar. The average exchange rate was approximately \$1.69:£1.00 against \$1.55:£1.00 in the previous year.

Unique advertisers increased by 6.3% to 386,000 with average turnover per unique advertiser up 14.0% to \$2,434.

Organic turnover growth at 11.5% comprised mainly same-market growth of 9.3% (or 9.8% excluding Manhattan) compared with 6.1% last year, and growth from ten new launches of 2.2%. The former McLeod directories are now achieving same-market growth in line with the rest of Yellow Book following the successful and rapid integration of the businesses. We expect the momentum in our US business to continue during the year ending 31 March 2005.

The inclusion of the McLeod and NDC acquisitions for the full year contributed 9.3% to turnover growth, and four directories published for the first time after acquisition contributed 0.1% to the growth, resulting in total acquired growth of 9.4%. The platform acquisition of Feist in March 2004, and six in-fill acquisitions during the year, will have a positive effect on turnover growth in the year ending 31 March 2005.

Adjusted EBITDA

Group Adjusted EBITDA increased 11.5% to £360.1 million, or 15.0% at a constant exchange rate, while Yell continued to invest to grow revenue. The Group Adjusted EBITDA margin increased 1.3 percentage points to 30.3%, driven by the strong US performance.

UK Adjusted EBITDA rose 3.1% to £233.1 million, reflecting primarily the continued progress of Yell.com, which increased EBITDA to £5.3 million from £1.1 million last year. The UK Adjusted EBITDA margin was 36.7%, compared to 36.8% last year, with Yell.com's margin increase offsetting the decline in the printed directories' margin.

US Adjusted EBITDA was £127.0 million, an increase of 31.2%, or 43.0% at a constant exchange rate, after taking into account the £11.4 million reduction in earnings from the weaker US dollar. The US Adjusted EBITDA margin increased from 19.4% to 23.0% in spite of continued investment. This was well ahead of expectations, driven by the strong revenue growth, operational leverage and integration benefits which were realised considerably earlier than expected.

Operating cash flow

Net cash inflow from operating activities, before exceptional costs and after capital expenditure, was £303.5 million after the negative £7.7 million exchange rate impact. This compares with £307.4 million last year which included a one-off timing benefit, as previously explained. The cash conversion rate was in line with expectations at 84.3%.

NET RESULTS

After tax results

Adjusted Profit after tax was £60.2 million, compared with a loss of £25.5 million last year. This reflects strong EBITDA growth, as well as lower interest payments arising from the new capital structure put in place at the time of the IPO on 15 July 2003. Net interest payable before exceptional costs arising on IPO was £136.1 million, compared with £236.6 million last year.

The taxation charge on the results before exceptional costs relating to the IPO was £44.2 million this year, compared with a credit of £9.0 million last year.

The loss on ordinary activities after tax and including exceptional IPO costs was £51.1 million, compared with a loss of £40.6 million last year which also included a non-recurring restructuring charge.

Exceptional costs

All exceptional costs were incurred during the first six months ended 30 September 2003 and amounted to £148.5 million before tax (£63.0 million cash costs; £85.5 million non-cash costs). In addition, £23.9 million of fees, payable primarily to advisers, were charged to the share premium account.

The bulk of these exceptional costs arose from unwinding the structure for buying Yell from BT in 2001 and establishing the current capital structure. The recognition of these costs was triggered by Yell's IPO in July 2003.

Earnings and dividend per share

The IPO had a significant effect on earnings per share. Pro forma (as if the IPO had occurred before the start of the year) earnings per share was 25.6 pence before exceptional costs and amortisation. Basic loss per share for the year was 8.9 pence. We are proposing to pay a final dividend of 6p per share bringing the total dividend since the IPO to 9p per share.

GLOBAL OFFER AND REFINANCING

On 15 July 2003, we raised £433.6 million (gross proceeds) through a global offer of shares to institutional investors. As a result of the IPO, we also refinanced our senior bank facility on 15 July 2003 and redeemed 35% of our high-yield notes on 18 August 2003. Net debt on a pro forma basis at the beginning of the year was approximately £1,340 million and has since been reduced to £1,223 million at 31 March 2004. Our net debt at 31 March 2004 is 3.4 times Adjusted EBITDA.

The composition of our debt partially hedges exchange rate fluctuations, because 37.2% of our debt and 30.7% of our net interest expense are denominated in US dollars. As a result, approximately 30% of US dollar Adjusted EBITDA is offset by US dollar interest.

OUTLOOK

Substantial ground work has been put in place to ensure that the growth momentum continues in the current year ending 31 March 2005. Our strong cash generation should allow us to continue to finance acquisitions in the US and grow dividends in line with earnings.

- Number of unique advertisers in printed directories that were recognised for turnover purposes and have been billed. Unique advertisers are counted once only, regardless of the number of advertisements they purchase or the number of directories in which they advertise.
- (2) The number of directory editions published in the United Kingdom has increased due to the rescoping of the Colchester directory into two directories, Colchester and Ipswich; the rescoping of the Sheffield directory into two directories, Sheffield and Barnsley; and the publication of three new Business Pages directories.
- (3) The proportion of unique advertisers that have renewed their advertising from the preceding publication. In the United Kingdom, this measure excludes national and key accounts where retention is very high.
- As a result of the progress in the United States towards integrating our customer databases, we have been able to make improvements in the ways in which we capture, record and analyse customer information. This has led to a significant overall elimination of duplicate records of unique advertisers. We have not adjusted the previously reported 2003 figure for any duplicated records in 2003. There remains some overlap in reporting unique advertisers between Yellow Book and the former McLeod that we expect to be removed. These improvements have not affected the reporting of our financial results.
- Unique customers with a live contract at month end. These figures refer to searchable advertisers only, i.e. advertisers for whom users can search on Yell.com. It excludes advertisers who purchase products such as banners and domain names.

UNAUDITED NOTES TO THE FINANCIAL INFORMATION

1. Basis of preparation and consolidation

The principal activity of Yell Group plc and its subsidiaries is publishing classified advertising directories in the United Kingdom and the United States.

The unaudited financial information has been prepared in accordance with generally accepted accounting principles in the UK ("UK GAAP") and on the basis of the accounting policies that were set out in the audited consolidated financial information of Yell Group plc for the year ended 31 March 2003.

The information contained herein does not constitute statutory financial statements within the meaning of section 240 of the Companies Act 1985.

In the opinion of management, the financial information included herein includes all adjustments necessary for a fair presentation of the consolidated results, financial position and cash flows for each year presented.

The preparation of the consolidated financial information requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial information and the reported amounts of income and expenditure during the year. Actual results could differ from those estimates. Estimates are used principally when accounting for doubtful debts, depreciation, employee pension costs and taxes.

Exceptional administrative expenses in the year ended 31 March 2004 relate to costs incurred in connection with our global offer. Of the £90.1 million exceptional administrative costs, £33.9 million relates to our UK business and £56.2 million to our US business. Exceptional administrative costs in the year ended 31 March 2003 relate to costs incurred in connection with the initial public offering withdrawn in July 2002. Of the £15.0 million exceptional administrative costs, £14.7 million was charged to our UK business and £0.3 million was charged to our US business. The exceptional interest payable in the year ended 31 March 2004 comprises £19.7 million senior debt redemption premium, £36.4 million from accelerated amortisation of deferred financing fees on our debt repaid in July and August 2003 and £2.3 million for arrangement fees for the undrawn revolving credit facility. The exceptional tax credits in the year ended 31 March 2004 and 2003 represent the tax on the exceptional items before tax.

Adjusted profit before taxation and adjusted profit after taxation for the year ended 31 March 2004 is £104.4 million and £60.2 million, respectively, as detailed in the table above. Adjusted loss before taxation for the year ended 31 March 2003 is £34.5 million reflecting the loss before taxation on on-going activities of £38.2 million, as detailed in the table above, excluding the £3.7 million charge for the non-recurring restructuring costs as part of the integration of the former McLeod acquisition in the United States. The impact on the loss after tax of excluding this item is £2.4 million bringing the adjusted loss after tax for year ended 31 March 2003 to £25.5 million.

The group losses have been adjusted to exclude interest charges on the long-term debt we repaid as a result of the initial public offering as if repaid on 31 March 2002. Interest has been added back by referring to the effective interest rates applied to the borrowings repaid from the proceeds of the IPO over each respective period. All interest adjustments have been tax effected at the UK corporation tax rate of 30%. The weighted average number of shares has been adjusted as though the initial public offering happened on 31 March 2002.

Exceptional items and, also in 2003 only, one-off non-recurring restructuring charges are explained in note 4.

Amortisation charges presented are not adjusted for tax. The adjustment would have been £85.8 million, as opposed to £96.7 million, and £86.5 million, as opposed to £98.4 million, in 2004 and 2003, respectively, if the tax effect from tax allowable amortisation in the United States had been taken into account. Accordingly, the diluted earnings per share would have been 24.0 pence, as opposed to 25.3 pence, in the year ended 31 March 2004.

⁽d) The calculation of the basic and diluted earnings (loss) per ordinary share has been based on the profit (loss) for the relevant financial year and on 262 million shares for the year ended 31 March 2003, being the weighted average share capital prior to the IPO after taking into account the restructuring of the existing share capital on the initial public offering. For the year ended 31 March 2004, the calculation was based on 572 million shares, the weighted average share capital during the year.

11. Related party transactions

Transaction and monitoring fees charged to the Group from Apax Partners Managing Entities and affiliates of Hicks, Muse, Tate and Furst Incorporated were £12.9 million each for the year ended 31 March 2004, excluding VAT. No transaction or monitoring fees were payable after 15 July 2003, the date of the initial public offering. Both parties ceased being related parties on 6 January 2004, when they sold their equity interests in the Yell Group.

12. United States Generally Accepted Accounting Principles

Our consolidated financial information is prepared in accordance with accounting principles generally accepted in the United Kingdom which differ in certain respects from those applicable in the United States ("US GAAP"). Differences result primarily from acquisition accounting, which affects the accounting for directories in progress, goodwill and other intangibles and taxation. Timing differences also arise when recognising certain costs associated with directories in progress, interest that is fixed by derivative financial instruments, and deferred tax assets associated with net operating losses in the United States. Differences in accounting for pensions arise from the requirements to use different actuarial methods and assumptions. Differences in accounting for our share options arise from the requirement to use option pricing models to value options under US GAAP in circumstances where the options are valued at £nil value under UK GAAP. Dividends are recorded, under UK GAAP, in the year in respect of which they are proposed by the board of directors to the shareholders. Under US GAAP, dividends are recorded in the year in which they are declared.

The following information summarises estimated adjustments, gross of their tax effect, which reconcile net loss and shareholders' deficit from that reported under UK GAAP to that which would have been recorded had US GAAP been applied.

13. Litigation

On 22 January 2004 Verizon filed suit in New York alleging that sales and marketing communications published by Yellow Book USA are misleading and have caused Verizon to lose revenue. We believe that the complaint is without merit and we will vigorously resist any claim for relief. We believe that a material adverse outcome to the company is considerably less than likely. We do not believe that there are any pending legal proceedings that would have a material adverse effect on the financial position or results of the Group.
